DFG

The international conference is funded by the Alfried Krupp von Bohlen und Halbach-Stiftung, Essen, the German Research Foundation, Bonn, and the Faculty of Theology at the University of Greifswald.

The Alfried Krupp Wissenschaftskolleg is an academically independent institution sponsored by the Stiftung Alfried Krupp Kolleg Greifswald.

After a period of intensive preoccupation with "Jesus of Nazareth" in social- and religious historical work, dogmatic Christologies seem to be making a comeback.

The themes of the conference are:

- the importance of Christology for dogmatics more generally, including hermeneutics and semiotics;
- the capacity of Christology to provide a point of integration for worship, the practice of reconciliation etc.;
- the "center" of this center in dogmatic thinking (incarnation or cross and resurrection, theology of the Word or Spirit Christology; divinisation or reconciliation and new creation);
- the place of "Christology" in Jewish-Christian-Muslim dialogue;
- revisions of classical Christological topics on the basis of theologies of gender.
